AMENDED IN SENATE MARCH 30, 2006

SENATE BILL

No. 1324

Introduced by Senator Lowenthal
(Coauthor: Assembly Member Daucher)

February 16, 2006

An act to amend Section 17292 of the Education Code, relating to school facilities.

LEGISLATIVE COUNSEL'S DIGEST

SB 1324, as amended, Lowenthal. School buildings: relocatable buildings.

Existing law, the Field Act, requires that an owned relocatable building that is to be used for school purposes is subject to certain provisions requiring approval of plans and relating to the structural safety of school buildings. The existing Field Act provides that, notwithstanding those provisions, an owned or leased relocatable building that does not meet those requirements may be used until September 30, 2007, as a school building, if certain conditions are met, including, among others, that the relocatable building was manufactured and in use for classroom purposes on or before May 1, 2000, and bears a commercial coach insignia of approval from the Department of Housing and Community Development.

This bill would ~~delete the restriction on~~ *authorize* the use of those owned or leased relocatable buildings as a school building ~~after September 30, 2007~~ *until September 30, 2015, if the specified conditions are met. The bill would also include, as additional conditions, that the relocatable building be anchored to the ground to resist earthquake and wind loads and that the school district has*

certified to the Department of General Services that the relocatable building complies with the conditions.

Existing law requires, for each relocatable building used as a school building, the governing board of a school district to certify to the State Allocation Board that commencing September 30, 2007, the relocatable building is no longer being used as a school building.

This bill would delete that provision. The bill would also delete an obsolete provision.
